Description

The NJ001A is an ultra-compact, lightweight fixed V-groove fusion splicer that can splice single fibers. It was designed to be smaller and more lightweight than previous models and also allows faster operation.
It supports splicing of single fiber drop cables.

Features

- Wide splicing chamber
- High capacity battery enables 100 cycles of splicing and heating
- High speed splicing of 15 sec and high speed heating of 30 sec
- Ruggedized design
- Fiber Curl Remove function is available
- Compact size and light weight
- High-torque motors are installed for drop cable splicing
- Automatic fusion program selection is available
- Heater adjustment function is available
